

Product Story

Our system can offer ten different modules to run all size of educational institutions other than universities. The school management; Teachers/Instructors/Staffs; Students and the parents are the primary user of the system and they will get direct benefits. Empowering the learning methods, this system can handle an e-learning environment including all tools to prepare digital contents. We can setup the hardware environment inside the school to produce digital contents studio school management facilitates with the ERP system. In addition, our system can be integrated with social media, notification in different communication channel e.g. mobile text email friendly.

Features

1. CMS-based ERP system; therefore user can use the system with minimum IT knowledge.
2. E-learning environment, if school facilitates the hardware we can set up the facility to produce digital contents with ERP Integration
3. Social media friendly
4. E-news letter creation and publish through the system
5. Different level of notification system: notice, admission news result, publication special announcement, etc.
6. Data Export in Excel and PDF
7. Financial Management; Inventory and Procurement from one single platform
8. Support Windows, Mobile, iOS and Android Operating System

Customization

During the implementation customization is needed based on the school operation and necessary modules decided by the school management.

Technology

Based on the level of usage and purpose we have necessary resources to customize the back end using JAVA, dot NET, Ruby & PHP different frameworks; iOS, Android.

Target Users

Different sizes of educational institutions except universities.

TeamSourcing Service

We can provide part-time, dedicated back office virtual assistant to support day-to-day activities e.g. maintenance, updates, repetitive tasks, programming, server maintenance and updates, web and E-marketing.
