

Product Story

Fully customized and compliance driven Financial Management system. Our Financial Management system will allow the user to modify end to end including input, output and reporting system.

Features

1. Financial Compliance: The system will allow user to modify compliance changes into the system without any system administrator support.
2. Security: We can integrate three-layers security for the data privacy and backups.
3. Approval: The user can setup the approval process and change according to the business needs without system administrator help.
4. Standard Operating Process (SOP): Based on the SOP documents the system will act, therefore the monthly cash flow, capital budgeting can be done automatically as well as the forecast.
5. Reporting: The user can setup the ratios and statistics of the business performance almost without help of System administrator. Export data in excel, pdf format
6. Virtual Audit: The system is capable to create almost necessary reports for quarterly, half-yearly and yearly audit reports, if the compliance data and management decisions are pre determined and input correctly.
7. Support mobile, iOS and Android OS

Customization

Without customization the system can't be used as is, we support our clients 3 months customization service and integration including live online training to use the system. In addition, we provide regular IT & Accounting support 20 hours/month as after sales service free of cost as long as the clients use our system.

Our customization steps

1. Management discussion
2. SOP- Standard Operating Process development
3. COA- Chart of Account Development based on the nature of business transaction.
4. Setup a virtual business and simulate the SOP and COA.
5. Finalizing the business performance (ratios) based on the simulation
6. Customize the HawksFinance
7. Test the system
8. Training
9. Implement the beta and use it for 6 months
10. Final release

Technology

Based on the level of usage and purpose we have necessary resources to customize the back end using JAVA, dot NET, Ruby & PHP different frameworks; iOS, Android.

Target Users

All sizes of business; but highly recommended for the fastest growing business.

TeamSourcing Service

We can provide part-time, dedicated Book Keeping and accounting, secretarial and legal services to maintain all accounting tasks and records, documentations up to the year-end audit service virtually.
