

## Product Story

Scooby strongly structured project management system; where a user can break down the project completion time to a minute. This is the hierarchy based project management application that will allow the project manager and management to oversee the project progress in a detail level and different levels of skill set involvement in to the project.

This system will restrict the user to assign any project without breaking it down to task level and define the checkpoints for each task completion.

## Features

1. Black Box: Project archiving online and of line with log files
2. Watcher: Intelligent reminding service in each defined steps by the users or project manager
3. Project progress statistics
4. Task checklist restrictions
5. Export data in excel, pdf format
6. Support mobile, iOS and Android Operating System

## Customization

During implementation customization is necessary according to the business needs in user interface level but backend customization is less likely required.

## Technology

Based on the level of usage and purpose we have necessary resources to customize the back end using JAVA, dot NET, Ruby & PHP different frameworks; iOS, Android.

## Target Users

Individual, small and big enterprise in service industry.

## TeamSourcing Service

We can provide part-time, dedicated back office virtual assistant to support on day-to-day activities e.g. maintenance, updates, repetitive tasks, programming, server maintenance and updates, web and E-marketing.
